120 ChatGPT Power Codes

Simple prompt shortcuts that tell ChatGPT how to think, write, plan or explain. Each code includes a plain-language description and a ready-to-copy example.

How to use: Start your message with a code, add a colon, then write your request.

Core Power Codes

1-19 | Foundational shortcuts for clearer thinking, stronger prompts and more useful answers.

1. TRUTHMODE

Gives you a direct, honest answer without softening it.

EXAMPLE PROMPT

TRUTHMODE: Am I wasting time trying to grow this business idea?

2. ELI10

Explains something in very simple language, as if teaching a child.

EXAMPLE PROMPT

ELI10: Explain how credit cards and interest work.

3. REDTEAM

Looks for weaknesses, risks and ways your idea could fail.

EXAMPLE PROMPT

REDTEAM: Try to break my plan for starting an online course.

4. HORMOZI

Makes an offer feel more valuable without simply lowering the price.

EXAMPLE PROMPT

HORMOZI: Improve this coaching offer so more people want it: [paste offer].

5. /HUMAN

Rewrites text so it sounds natural, personal and less robotic.

EXAMPLE PROMPT

/HUMAN: Rewrite this email so it sounds like a real person wrote it: [paste email].

6. UNLEARN

Challenges a belief or assumption that may be holding you back.

EXAMPLE PROMPT

UNLEARN: Challenge my belief that I need lots of money to start a business.

7. SOCRATES

Helps you reach your own answer by asking useful questions.

EXAMPLE PROMPT

SOCRATES: Help me decide whether I should change careers.

8. LINDYMODE

Focuses on ideas and habits that have worked for a long time.

EXAMPLE PROMPT

LINDYMODE: What are the most reliable ways to stay healthy as I age?

9. 80/20

Finds the small number of actions that create most of the results.

EXAMPLE PROMPT

80/20: Which parts of learning Italian will help me improve fastest?

10. FUTUREYOU

Answers from the perspective of a wiser, successful future version of you.

EXAMPLE PROMPT

FUTUREYOU: I am five years older and financially stable. What did I stop doing?

11. ANTIADVICE

Shows what you should stop doing instead of adding more tasks.

EXAMPLE PROMPT

ANTIADVICE: What should I stop doing if I want more free time?

12. FIRSTPRINCIPLES

Breaks a problem into the most basic facts before solving it.

EXAMPLE PROMPT

FIRSTPRINCIPLES: How can I build a profitable newsletter from zero?

13. YCOMBINATOR

Reviews an idea like a practical startup investor.

EXAMPLE PROMPT

YCOMBINATOR: Evaluate my idea for a local dog-walking app.

14. GARYVEE

Turns one idea into many pieces of social-media content.

EXAMPLE PROMPT

GARYVEE: Turn this five-minute cooking video into 10 posts.

15. SHADOWMOTIVE

Looks for the hidden emotional reason behind a choice or habit.

EXAMPLE PROMPT

SHADOWMOTIVE: Why do I keep delaying work I say is important?

16. LOSSAVERSION

Frames a message around what someone risks losing by waiting.

EXAMPLE PROMPT

LOSSAVERSION: Rewrite this gym offer around the cost of doing nothing.

17. CONTRASTMODE

Compares options clearly so the differences are easy to see.

EXAMPLE PROMPT

CONTRASTMODE: Compare working from home with renting an office.

18. INCENTIVEMAP

Explains what each person wants and what drives their behaviour.

EXAMPLE PROMPT

INCENTIVEMAP: Why are my customer, supplier and partner disagreeing?

19. SPECIFICITY

Replaces vague statements with clear details, numbers and examples.

EXAMPLE PROMPT

SPECIFICITY: Make this business goal concrete and measurable: "grow faster."

Thinking & Problem-Solving

20-40 | Use these to challenge assumptions, compare choices and uncover what you may be missing.

20. DEVILSADVOCATE

Builds the strongest argument against your current opinion.

EXAMPLE PROMPT

DEVILSADVOCATE: Argue against my plan to quit my job this month.

21. BLINDSPOT

Points out something important you may be missing.

EXAMPLE PROMPT

BLINDSPOT: Review my plan to move abroad with two children.

22. ROOTCAUSE

Finds the deeper cause instead of only treating the visible problem.

EXAMPLE PROMPT

ROOTCAUSE: Why do I keep missing deadlines even when I plan ahead?

23. SECONDORDER

Shows what may happen after the immediate result.

EXAMPLE PROMPT

SECONDORDER: What could happen after I lower my prices to attract customers?

24. INVERSION

Solves a problem by first identifying what would guarantee failure.

EXAMPLE PROMPT

INVERSION: What would guarantee that my fitness plan fails?

25. SYSTEMSTHINKING

Shows how different parts of a situation affect one another.

EXAMPLE PROMPT

SYSTEMSTHINKING: Explain why my workload, sleep and motivation keep affecting each other.

26. MENTALMODELS

Looks at one problem through several useful ways of thinking.

EXAMPLE PROMPT

MENTALMODELS: Analyse whether I should buy or rent a home.

27. ASSUMPTIONCHECK

Lists the assumptions behind your plan and tests them.

EXAMPLE PROMPT

ASSUMPTIONCHECK: Review the assumptions behind my new product idea.

28. BIASCHECK

Finds thinking biases that may be influencing your decision.

EXAMPLE PROMPT

BIASCHECK: Am I being irrational about selling an investment at a loss?

29. PREMORTEM

Imagines the plan failed and explains the likely reasons.

EXAMPLE PROMPT

PREMORTEM: Assume my online store failed after one year. What went wrong?

30. POSTMORTEM

Reviews what went wrong after something failed and extracts lessons.

EXAMPLE PROMPT

POSTMORTEM: Analyse why my last product launch underperformed: [details].

31. OCCAMSRAZOR

Finds the simplest explanation that fits the facts.

EXAMPLE PROMPT

OCCAMSRAZOR: Why have my video views suddenly dropped?

32. STEELMAN

Creates the strongest, fairest version of the opposing view.

EXAMPLE PROMPT

STEELMAN: Give the strongest case for staying in my current job.

33. FALSIFY

Shows what evidence would prove a belief or claim wrong.

EXAMPLE PROMPT

FALSIFY: What evidence would show that this business idea has no demand?

34. TRADEOFFS

Explains what you gain and what you give up with each choice.

EXAMPLE PROMPT

TRADEOFFS: Compare earning more money with having more free time.

35. OPPORTUNITYCOST

Shows what you lose by choosing one option over another.

EXAMPLE PROMPT

OPPORTUNITYCOST: What am I giving up by spending six months on this project?

36. CONSTRAINTFIRST

Finds the biggest limitation before suggesting solutions.

EXAMPLE PROMPT

CONSTRAINTFIRST: Why is my content production still slow?

37. BOTTLENECK

Finds the single problem slowing everything else down.

EXAMPLE PROMPT

BOTTLENECK: I keep falling behind on housework. What is causing it?

38. LEVERAGEPOINT

Finds the smallest change that could create the biggest improvement.

EXAMPLE PROMPT

LEVERAGEPOINT: What one change would improve my weekly productivity most?

39. DECISIONTREE

Maps your choices and the likely result of each one.

EXAMPLE PROMPT

DECISIONTREE: Map my options for repairing, selling or replacing my car.

40. SCENARIOPLAN

Shows the best-case, normal and worst-case outcomes.

EXAMPLE PROMPT

SCENARIOPLAN: What could happen if I start freelancing full-time?

Action & Productivity

41-60 | Turn goals into steps, priorities, systems and immediate next actions.

41. ACTIONMODE

Gives you practical actions you can do immediately.

EXAMPLE PROMPT

ACTIONMODE: I feel unmotivated. Give me three actions for the next 30 minutes.

42. STEPMODE

Breaks a task into simple numbered steps.

EXAMPLE PROMPT

STEPMODE: Help me plan a cheap weekend trip.

43. SIMPLIFY

Removes unnecessary complexity and gives you the easiest workable approach.

EXAMPLE PROMPT

SIMPLIFY: Make my morning routine easier to follow.

44. MINIMUMVIABLE

Creates the smallest version you can test quickly.

EXAMPLE PROMPT

MINIMUMVIABLE: What is the simplest version of my app I can launch this week?

45. NEXTMOVE

Tells you the single most useful thing to do next.

EXAMPLE PROMPT

NEXTMOVE: I want to get fitter but keep overthinking. What should I do today?

46. EXECUTIONPLAN

Turns a goal into a clear plan with actions and timing.

EXAMPLE PROMPT

EXECUTIONPLAN: Help me save 1,000 euros in three months.

47. CHECKLIST

Turns a task into an easy list you can follow.

EXAMPLE PROMPT

CHECKLIST: Help me leave the house with two young children.

48. ROADMAP

Organises a goal into stages, milestones and priorities.

EXAMPLE PROMPT

ROADMAP: Create a six-month plan for learning video editing.

49. TIMELINE

Creates a realistic schedule for completing something.

EXAMPLE PROMPT

TIMELINE: Plan the next four weeks of my website launch.

50. SPRINTMODE

Creates a focused short-term plan, usually for seven days.

EXAMPLE PROMPT

SPRINTMODE: Build me a seven-day plan to declutter my home.

51. DEEPWORK

Creates a distraction-free plan for focused work.

EXAMPLE PROMPT

DEEPWORK: Help me finish this report in one focused afternoon.

52. AUTOMATE

Finds tasks that software or AI could do for you.

EXAMPLE PROMPT

AUTOMATE: Which parts of my customer-support process can ChatGPT handle?

53. DELEGATE

Shows which tasks someone else could do for you.

EXAMPLE PROMPT

DELEGATE: I run a small online business. What should I hand off first?

54. ELIMINATE

Finds low-value tasks you can stop doing.

EXAMPLE PROMPT

ELIMINATE: Review my daily routine and show me what I can remove.

55. PRIORITIZE

Ranks tasks by importance, impact and urgency.

EXAMPLE PROMPT

PRIORITIZE: Rank these ten tasks for today: [paste tasks].

56. QUICKWIN

Finds the easiest useful action that can create a fast result.

EXAMPLE PROMPT

QUICKWIN: What can I do today to improve my finances slightly?

57. HABITSTACK

Connects a new habit to something you already do.

EXAMPLE PROMPT

HABITSTACK: Help me add five minutes of stretching to my morning.

58. FAILSAFEMODE

Builds a plan that can survive mistakes or bad days.

EXAMPLE PROMPT

FAILSAFEMODE: Design a workout routine I can continue even during busy weeks.

59. ACCOUNTABILITY

Creates clear checkpoints so you are more likely to follow through.

EXAMPLE PROMPT

ACCOUNTABILITY: Build weekly checkpoints for my three-month savings goal.

60. TIMESAVER

Finds the fastest reliable way to complete a task.

EXAMPLE PROMPT

TIMESAVER: What is the quickest way to organise 5,000 photos?

Business & Marketing

61-80 | Improve offers, positioning, customer understanding and content performance.

61. VALUESTACK

Adds useful bonuses and benefits to make an offer stronger.

EXAMPLE PROMPT

VALUESTACK: Improve this photography package without lowering its price.

62. OFFERAUDIT

Finds reasons why people may not understand or buy your offer.

EXAMPLE PROMPT

OFFERAUDIT: Review this landing-page offer: [paste copy].

63. CUSTOMERAVATAR

Describes the type of customer most likely to buy.

EXAMPLE PROMPT

CUSTOMERAVATAR: Define the ideal customer for my beginner fitness course.

64. PAINPOINTS

Finds the strongest problems and frustrations your audience has.

EXAMPLE PROMPT

PAINPOINTS: What frustrates busy parents about cooking healthy meals?

65. DREAMOUTCOME

Defines the result the customer truly wants.

EXAMPLE PROMPT

DREAMOUTCOME: What does a beginner really want from a language-learning app?

66. POSITIONING

Makes your product easier to understand and different from competitors.

EXAMPLE PROMPT

POSITIONING: Position my newsletter for people overwhelmed by AI news.

67. UNIQUEANGLE

Finds a fresh and interesting way to present an idea.

EXAMPLE PROMPT

UNIQUEANGLE: Give me a new angle for a video about saving money.

68. MARKETGAP

Looks for a useful need that competitors are not serving well.

EXAMPLE PROMPT

MARKETGAP: Find underserved ideas in the local pet-care market.

69. COMPETITORAUDIT

Compares competitors and identifies weaknesses or opportunities.

EXAMPLE PROMPT

COMPETITORAUDIT: Compare these three meal-planning apps: [names].

70. MOAT

Finds ways to make a business harder to copy.

EXAMPLE PROMPT

MOAT: How can a small newsletter build a lasting advantage?

71. PRICINGPOWER

Improves an offer so customers can accept a higher price.

EXAMPLE PROMPT

PRICINGPOWER: How can I justify charging more for this service?

72. OBJECTIONMAP

Lists the reasons people may hesitate and answers each one.

EXAMPLE PROMPT

OBJECTIONMAP: What objections will customers have to my 99-euro course?

73. GUARANTEE

Creates a clear and responsible promise that lowers customer risk.

EXAMPLE PROMPT

GUARANTEE: Create a fair guarantee for my online coaching service.

74. SOCIALPROOF

Shows how to make a claim more believable with evidence.

EXAMPLE PROMPT

SOCIALPROOF: What proof should I add to this sales page?

75. URGENCY

Explains why someone should act now without fake pressure.

EXAMPLE PROMPT

URGENCY: Improve this offer so people feel motivated to act now: [paste offer].

76. SCARCITY

Uses real limits such as time, seats or supply without being dishonest.

EXAMPLE PROMPT

SCARCITY: Add ethical scarcity to my live workshop offer.

77. HOOKFACTORY

Generates many attention-grabbing opening lines.

EXAMPLE PROMPT

HOOKFACTORY: Write 20 hooks for a video about hidden phone settings.

78. CURIOSITYGAP

Creates interest by revealing enough to make people want the answer.

EXAMPLE PROMPT

CURIOSITYGAP: Rewrite this video opening so viewers keep watching: [paste].

79. CONTROVERSY

Finds a strong opinion that challenges common thinking but can be defended.

EXAMPLE PROMPT

CONTROVERSY: Give me a bold angle on why morning routines are overrated.

80. VIRALITY

Improves content so people are more likely to watch, share or discuss it.

EXAMPLE PROMPT

VIRALITY: Improve this short-video idea for retention and shares: [idea].

Writing & Communication

81-100 | Make writing clearer, shorter, more persuasive and easier to understand.

81. PROMPTBOOST

Turns a basic request into a clearer and more detailed ChatGPT prompt.

EXAMPLE PROMPT

PROMPTBOOST: Rewrite this into a better prompt: "help me grow my business."

82. CLARITY

Rewrites text so it is easier to understand.

EXAMPLE PROMPT

CLARITY: Rewrite this paragraph so anyone can understand it: [paste].

83. CONCISE

Keeps the meaning while using fewer words.

EXAMPLE PROMPT

CONCISE: Shorten this email without losing the important details: [paste].

84. EXPAND

Adds useful details, examples and explanations.

EXAMPLE PROMPT

EXPAND: Turn these notes into a complete explanation: [paste notes].

85. PERSUADE

Makes an argument more convincing without making false claims.

EXAMPLE PROMPT

PERSUADE: Improve this request for a pay rise: [paste].

86. STORYMODE

Explains an idea through a short and interesting story.

EXAMPLE PROMPT

STORYMODE: Explain why small daily habits matter.

87. ANALOGY

Makes a difficult idea easier by comparing it to something familiar.

EXAMPLE PROMPT

ANALOGY: Explain inflation using a supermarket example.

88. SHOWDONTTELL

Replaces vague claims with concrete actions, scenes and details.

EXAMPLE PROMPT

SHOWDONTTELL: Rewrite "she was nervous" so the reader can feel it.

89. ACTIVEVOICE

Makes writing more direct and energetic.

EXAMPLE PROMPT

ACTIVEVOICE: Rewrite this paragraph using active language: [paste].

90. TONECHECK

Finds places where your message may sound rude, cold or unclear.

EXAMPLE PROMPT

TONECHECK: Does this message sound too demanding? [paste message].

91. PROOFREAD

Fixes grammar, spelling, punctuation and awkward wording.

EXAMPLE PROMPT

PROOFREAD: Make this message clear, natural and polite: [paste message].

92. FACTCHECK

Separates facts, assumptions and claims that still need proof.

EXAMPLE PROMPT

FACTCHECK: Review these claims and mark what needs verification: [paste].

93. HEADLINES

Creates strong title or headline options.

EXAMPLE PROMPT

HEADLINES: Write 15 titles for an article about working from home.

94. HOOKFIRST

Moves the strongest idea to the beginning.

EXAMPLE PROMPT

HOOKFIRST: Rewrite this post so the first sentence grabs attention: [paste].

95. OPENLOOP

Starts with an unanswered question that keeps people interested.

EXAMPLE PROMPT

OPENLOOP: Add an open loop to this tutorial introduction: [paste].

96. PATTERNINTERRUPT

Uses an unexpected opening to stop people from scrolling.

EXAMPLE PROMPT

PATTERNINTERRUPT: Write five unusual openings for a budgeting video.

97. EMOTIONBOOST

Makes writing feel more emotional without becoming exaggerated.

EXAMPLE PROMPT

EMOTIONBOOST: Make this customer story more moving but still believable: [paste].

98. CREDIBILITY

Adds specifics and evidence so the message feels more trustworthy.

EXAMPLE PROMPT

CREDIBILITY: Strengthen this claim without exaggerating it: [paste].

99. READERFOCUS

Rewrites content around what the reader gets or experiences.

EXAMPLE PROMPT

READERFOCUS: Rewrite this service description around the customer benefit: [paste].

100. PLAINENGLISH

Removes jargon and uses normal everyday language.

EXAMPLE PROMPT

PLAINENGLISH: Explain this legal paragraph in ordinary language: [paste].

Learning & Research

101-110 | Learn faster, test understanding and judge evidence more carefully.

101. EXPERTPANEL

Reviews one problem from several expert viewpoints.

EXAMPLE PROMPT

EXPERTPANEL: Analyse my sleep routine as a doctor, coach and productivity expert.

102. TEACHBACK

Explains something and then checks whether you can explain it yourself.

EXAMPLE PROMPT

TEACHBACK: Teach me compound interest, then test my explanation.

103. FEYNMAN

Explains a topic simply so gaps in understanding become obvious.

EXAMPLE PROMPT

FEYNMAN: Teach me how the internet works in very simple language.

104. QUIZMODE

Tests your knowledge with questions that gradually get harder.

EXAMPLE PROMPT

QUIZMODE: Test my basic Italian and make each question harder.

105. FLASHCARDS

Turns information into simple questions and answers for studying.

EXAMPLE PROMPT

FLASHCARDS: Turn these biology notes into easy study cards: [paste notes].

106. CURRICULUM

Builds a learning path from beginner to advanced.

EXAMPLE PROMPT

CURRICULUM: Create a three-month plan for learning photography.

107. PREREQUISITES

Shows what you should learn before starting a difficult topic.

EXAMPLE PROMPT

PREREQUISITES: What should I understand before learning coding?

108. KNOWLEDGEGAPS

Finds important things you still do not understand.

EXAMPLE PROMPT

KNOWLEDGEGAPS: Ask me questions to find gaps in my personal-finance knowledge.

109. SOURCECHECK

Shows which claims need stronger sources or verification.

EXAMPLE PROMPT

SOURCECHECK: Review this article and flag weakly supported claims: [paste].

110. EVIDENCEGRADE

Rates how strong or weak the evidence is behind each claim.

EXAMPLE PROMPT

EVIDENCEGRADE: Rate the evidence for these health claims: [paste claims].

Strategy & Personal Decisions

111-120 | Think long term, assess risk and make more grounded personal decisions.

111. NAVAL

Looks at a decision using leverage, ownership, freedom and long-term thinking.

EXAMPLE PROMPT

NAVAL: Should I start a side business while keeping my job?

112. BEZOS

Focuses on customers, long-term value and decisions that can be reversed.

EXAMPLE PROMPT

BEZOS: Should I launch this product now or keep improving it?

113. MUSK

Breaks a problem into basic constraints, inputs and practical solutions.

EXAMPLE PROMPT

MUSK: I keep missing deadlines. What are the real constraints?

114. BUFFETT

Looks at durability, risk and long-term value.

EXAMPLE PROMPT

BUFFETT: Is this a sensible long-term business investment?

115. REGRETMINIMIZATION

Chooses the option you are least likely to regret later.

EXAMPLE PROMPT

REGRETMINIMIZATION: Should I accept this job abroad or stay home?

116. REVERSIBILITY

Separates choices that are easy to undo from choices that are difficult to undo.

EXAMPLE PROMPT

REVERSIBILITY: Which parts of my business decision can I safely test first?

117. ENERGYAUDIT

Finds which activities give you energy and which ones drain you.

EXAMPLE PROMPT

ENERGYAUDIT: Review my week and show me what helps or exhausts me.

118. IDENTITYSHIFT

Defines the habits and mindset of the person who reaches your goal.

EXAMPLE PROMPT

IDENTITYSHIFT: Who do I need to become to train consistently for one year?

119. REALITYCHECK

Compares your expectations with the most likely real-world outcome.

EXAMPLE PROMPT

REALITYCHECK: Can I realistically learn fluent Italian in three months?

120. NOEXCUSES

Separates real limitations from avoidable excuses.

EXAMPLE PROMPT

NOEXCUSES: Review why I am not exercising and tell me what is actually in my control.
