UPLOAD. PICK A CODE. TRANSFORM.

Upload one photo, or two photos for a couple. Copy a code and its visual direction from the collection, then use the prompt below.

REUSABLE IMAGE PROMPT

Transform the uploaded reference photo into an authentic 1980s photograph. Style: [CODE]. Visual direction: [DIRECTION]. Preserve each person's recognizable facial features, age, skin tone and body proportions. Adapt clothing, hair, setting and lighting to the selected style. Keep realistic skin texture, natural hands and believable anatomy. Use era-appropriate details and subtle photographic grain. For two reference photos, show both people together and preserve each identity. Do not add text, logos or watermarks unless the selected style requires them.

The codes are short style prompts; the visual direction gives each one a more specific look.
