

MAKE A MOVIE SCENE FROM ONE CHAT

No camera, no actors, no film crew. One idea in Buzzy's Agent Mode and it writes, designs, builds and edits the whole scene for you.

STEP 1 / OPEN BUZZY

THE AI CANVAS THAT MAKES THE WHOLE FILM

TAP HERE TO OPEN BUZZY

buzzy.now

01

OPEN BUZZY

Tap the link and switch to Agent Mode.

02

PICK "AI FILM"

Choose the AI Film skill and paste the prompt below.

03

FIX + EXPORT

Change the light or camera angle of any shot, then export.

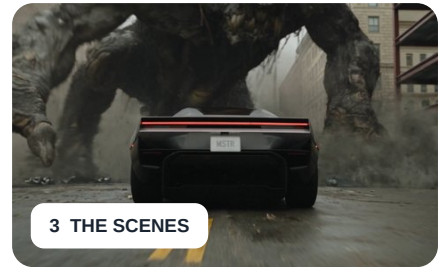

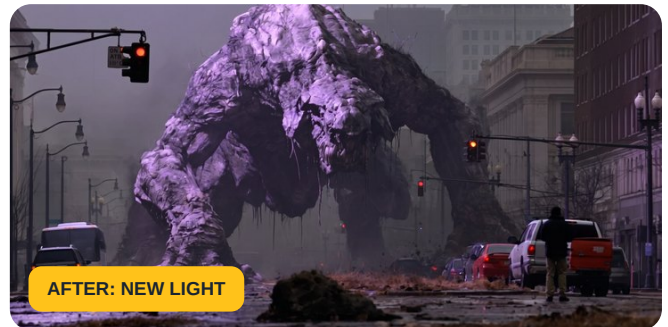

THE PROMPT

COPY AND PASTE

Make a 30-second movie scene: [YOUR IDEA, for example a giant monster chasing a car through a city at night]. Write the script, design the characters, build every scene and the storyboard, then put all the shots together into one cinematic film.

What one chat builds for you

Every picture below came out of the same chat in Buzzy.

TIP Don't like a shot? Click it and change the light, the camera angle or anything else.

5 MORE IDEAS TO PASTE INTO THE PROMPT

SCI-FI a lone astronaut finds a glowing door on Mars

ACTION a motorbike chase across the rooftops of Tokyo in the rain

FANTASY a dragon lands in the middle of a busy football stadium

HORROR the lights go out one by one in an empty shopping mall

AD your product falls from space and lands in a city square
