GET MORE OUT OF EVERY SKILL

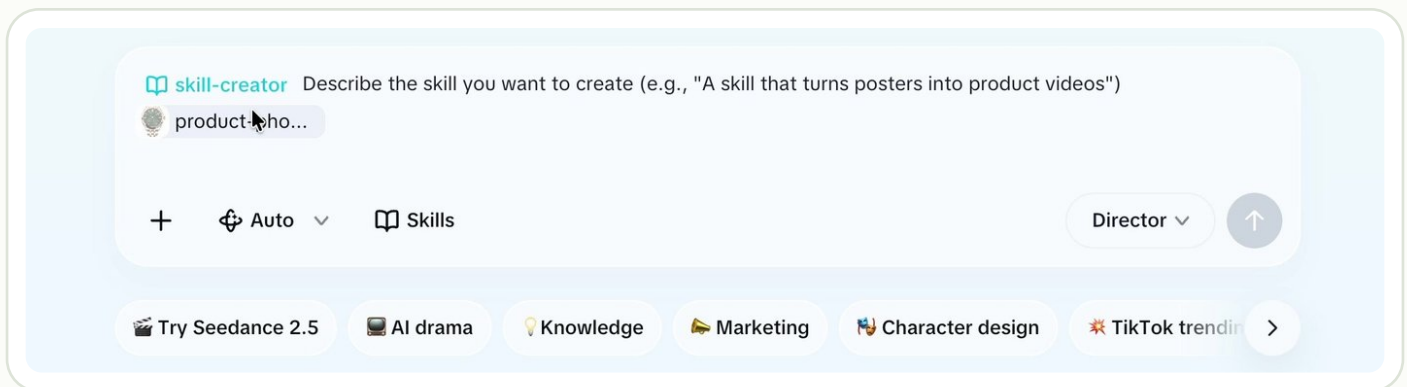

- **Start sharp.** Use a clear, well-lit photo with the whole product in frame.
- **Test a few.** Run the same photo through two or three skills and post the best result.
- **Make it yours.** Next page: create your own skill in a minute.

4 Create your own skill

- 1 Click Skills → Create skill
- 2 Choose Create in chat
- 3 skill-creator appears in the prompt box — describe the skill you want
- 4 Drop in your product photo and send

CREATE SKILL > CREATE IN CHAT

SKILL-CREATOR IN THE PROMPT BOX, WITH YOUR PRODUCT PHOTO DROPPED IN

TWO PROMPTS TO COPY AND PASTE

Paste one after skill-creator, drop in your product photo and send.

PROMPT A - 10-SECOND BLACK FRIDAY AD

A skill that turns one product photo into a 10-second Black Friday ad: slow push-in on the product, a bold price tag reveal, big '-50% BLACK FRIDAY' text, punchy music, vertical 9:16.

PROMPT B - 3-SHOT UGC-STYLE AD

A skill that turns my product photos into a 3-shot UGC-style ad: a creator holds the product, talks to the camera about one benefit, ends with a close-up and an 'order today' text card, vertical 9:16.

TIP Say the length, the on-screen text and the format you want. The clearer the brief, the better your skill.

5 More Marketing skills to try

Find all of these in Skills > Marketing inside CapCut PC.

■ Viral Video Replicator

Recreates a viral video format with your own product.

■ Sports Foodification Ad Maker

Turns a sports product into a food-inspired ad that makes people look twice.
