The whole workflow

4 quick steps

01

Open ChatGPT

Start a new ChatGPT conversation.

02

Upload any image

Attach the image you want to animate.

03

Use Higgsfield plugin

Click Plugins, then choose Higgsfield.

04

Type /LIDAR

Submit the command and generate the video.

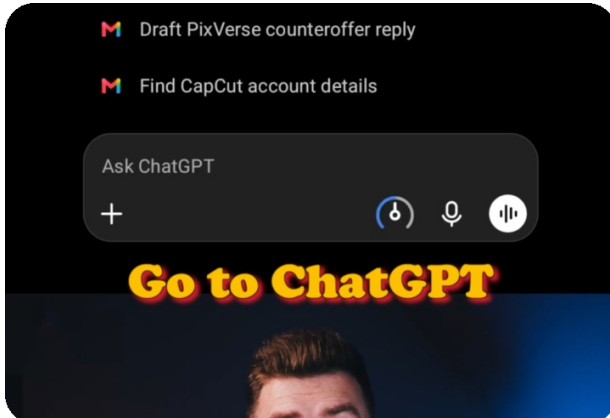

THE ONLY COMMAND YOU NEED

/LIDAR

Keep your image attached when you send it.

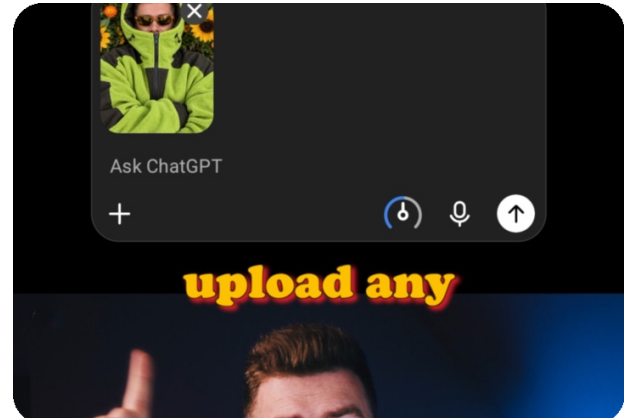

Make it in 4 steps

Follow the sequence below inside ChatGPT.

**1**

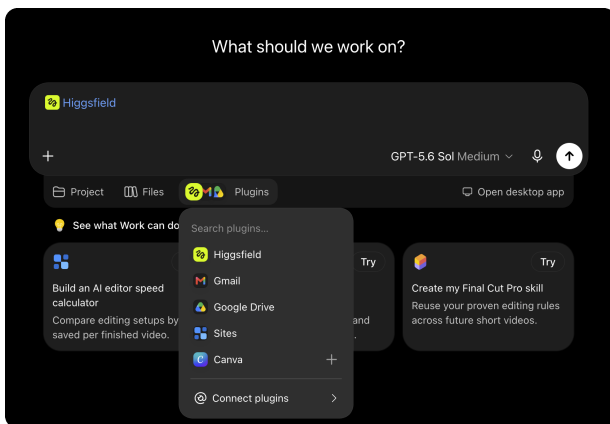

Go to ChatGPT

Open ChatGPT and start a fresh chat.

**2**

Upload an image

Attach any image you want to transform.

**3**

Use Higgsfield plugin

Click Plugins below the prompt, then choose Higgsfield.

**4**

Generate the video

Follow the on-screen generation step and wait for the LIDAR result.

READY TO TRY IT?
