# RECREATE THE EFFECT

Upload the real clip, keep its motion, and add the impossible part.

USE HIGGSFIELD

## QUICK WORKFLOW

### 1 UPLOAD THE REFERENCE

Add the original video you want to transform.

### 2 PASTE THE PROMPT

Keep the full prompt as one paragraph.

### 3 CHOOSE THE MODEL

Select Seedance 2.0 in Create Video.

### 4 SET AND GENERATE

10s - Auto - 1080p - Standard, then Generate.

## COPY THIS ONE PROMPT

keep everything the same as it is in the video, the light, color, movements, but he actually takes off his head and puts in his armpit and holds it (follow the hand movements from the real footage). make sure the head on his body is longer there after he safely takes it off, and only a live body with neck is there, the same as it is Make sure to follow the same hand motion and gesture as uploaded video, audio and lipsync also remain similar to raw video. (1080 quality)
