WORKFLOW OVERVIEW

This PDF shows the full workflow: first collect surreal Midjourney image references, then use ChatGPT to place your face into the images while preserving the original style, and finally animate the finished stills with Kling 3.0.

01

FIND THE STYLE

Search Midjourney for scenes with strong mood, simple composition, and clear visual identity.

02

SAVE THE PROMPT

Keep the original Midjourney prompt beside each reference image.

03

ADD YOUR FACE

Upload your face reference + the scene image to ChatGPT and ask for accurate identity, lighting, scale, and style preservation.

04

ANIMATE

Use the finished image as the Kling 3.0 start frame and add a short natural-motion video prompt.

Night City Coupe

MIDJOURNEY PROMPT

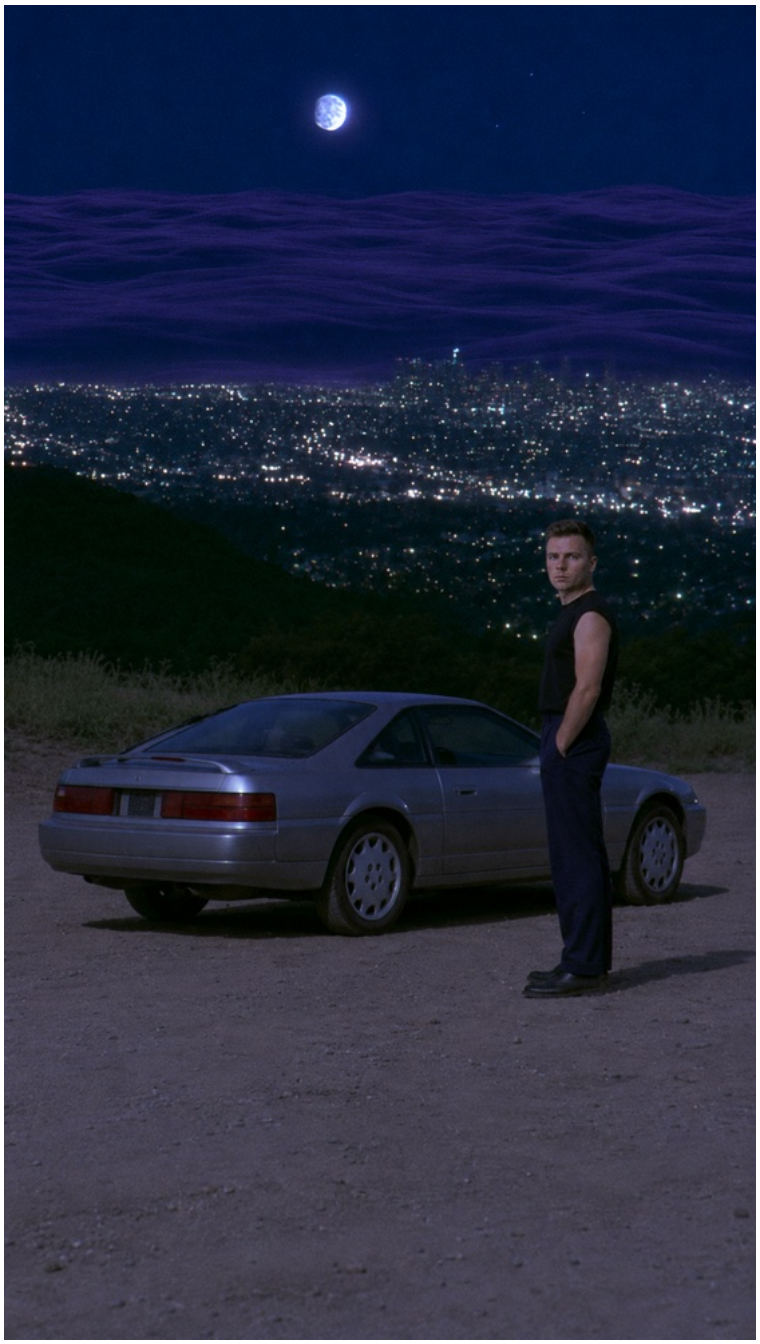
wide shot, same male character standing beside parked silver coupe, looking at distant surreal night city with soft digital waves, black sleeveless shirt and dark trousers, huge empty foreground, cinematic framing, realistic photography, muted colors, slight teal-orange, subtle film grain, David Fincher, Sofia Coppola, Canon EOS R5 --ar 4:5 --raw --v 8.1 --profile mt7yyup --stylize 300

CHATGPT IMAGE PROMPT TEMPLATE

COPY / PASTE MASTER PROMPT

Use my uploaded face reference and place me into this Midjourney image. Keep the scene style, composition, color palette, lighting, lens feel, and overall vibe. Replace the original person if there is one. Remove anything unwanted from the original person if needed. Make me fit the scene naturally with correct scale, shadows, pose, and clothing. Keep my face accurate to the reference, detailed, realistic, and visible. Output: 9:16, 4K.

MOONLIT CITY + RETRO COUPE



CHATGPT PROMPT

Swap me into the night city overlook scene beside the silver coupe. Keep the moon, city lights, purple wave clouds, car, grainy retro-night style, and make me face the camera with a clear detailed face. 9:16, 4K.

DESERT MONUMENT PORTRAIT

CHATGPT PROMPT

Replace the original man and remove everything he is holding. Put me in the scene wearing the brown robe and a white scarf around the neck only. Keep the Sphinx, pyramid haze, vintage desert-photo atmosphere, and make the face accurate. 9:16, 4K.

VOLVO LAKE SUNSET

CHATGPT PROMPT

Put me beside the black vintage Volvo by the lake at sunset. Keep the mountain silhouette, sun reflection, car side profile, quiet cinematic mood, and make me proportionally smaller so the car scale feels natural. 9:16, 4K.

VINTAGE PHONE FIELD

CHATGPT PROMPT

Place me near the mint-green rotary telephone in the dry field. Keep the huge sunset sky, distant hill, dusty grass texture, surreal stillness, and make my face detailed and correct. 9:16, 4K.

WHITE FORMATION FIELD

CHATGPT PROMPT

Place me near the massive white wind-shaped sculptural formation. Keep the deep blue sky, dry field, surreal clean composition, realistic texture, and make the face clear and accurate. 9:16, 4K.

BLUE SOFA COAST

CHATGPT PROMPT

Put me on the blue sofa on white sand by the calm sea. Keep the pastel clouds, coffee table, minimal luxury surreal mood, and make the face realistic and detailed. 9:16, 4K.

CURTAIN MEADOW

CHATGPT PROMPT

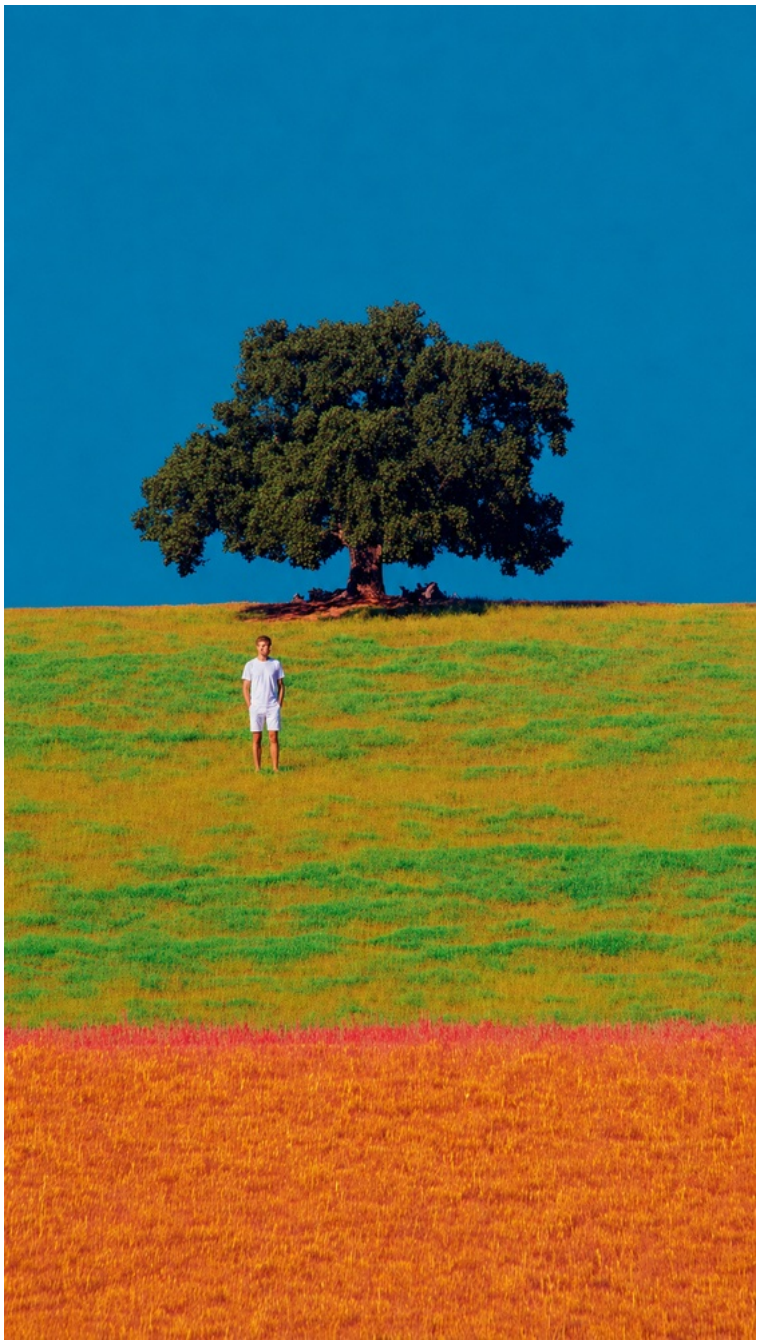
Place me inside the white-curtain meadow scene. Keep the flowers, soft natural light, airy pastoral mood, and make the face very close to the reference. 9:16, 4K.

GREEN MAZE

CHATGPT PROMPT

Replace the figure in the giant green hedge maze with me. Keep the overhead maze perspective, deep green texture, cinematic contrast, and make my face visible and accurate. 9:16, 4K.

COLOR FIELD + TREE



CHATGPT PROMPT

Put me into the bright color-field landscape with the large tree. Keep the saturated grass bands, blue sky, minimal surreal composition, and make me fit the scale. 9:16, 4K.

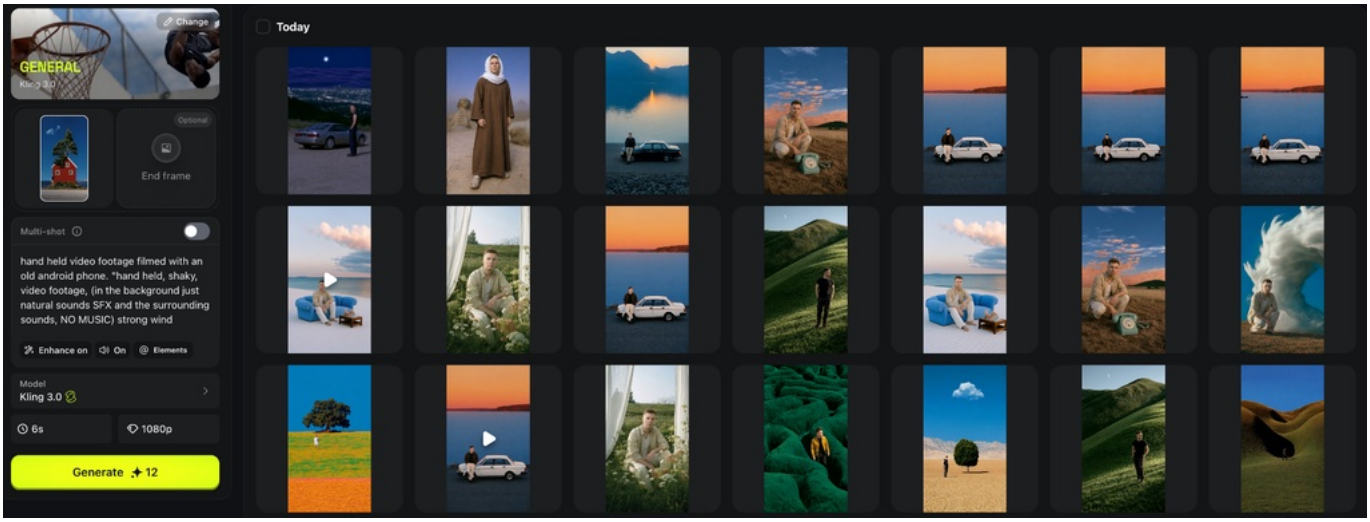
PINK RIVER + HORSE

CHATGPT PROMPT

Place me near the horse and the pink river landscape. Keep the surreal color palette, pale grass, deep blue sky, and natural photographic integration. 9:16, 4K.

ANIMATE IN KLING 3.0

Use the finished ChatGPT still as the start frame, then animate with Kling 3.0.



KLING 3.0 VIDEO PROMPT

hand held video footage filmed with an old android phone. hand held, shaky video footage. In the background: only natural sounds, SFX, and the surrounding sounds. NO MUSIC. Strong wind.
