YOU FILM THIS

RECAST MAKES THIS

1 Film yourself

Film 5 to 15 seconds of you talking, like you always do. Keep your face in the frame and the camera still.

2 Get one photo of your character

Use a clear photo of the person you want to be, or make one in Image & Video with this. Change the look to anything you like.

COPY + PASTE

copy

Portrait photo of a friendly woman with long red hair, black tank top, looking at the camera, plain dark background, soft light

3 Open Recast and press Generate

Tap the green box, open Recast in Templates, add your video and the photo, and press Generate. Only the person changes. Your room, your hands and your voice stay.
