3. Continue.

Confirm the likeness permission when prompted, then click Continue.

02 Choose your voice

Use your own voice or pick an existing one.

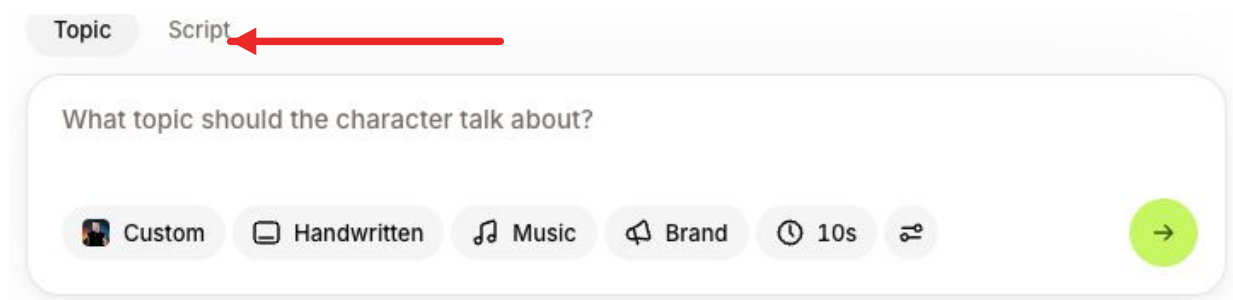

Clone voice: read VEED's short script aloud naturally.

Existing voice: preview a voice and select it.

Tell your clone what to say.

Type an idea in **Topic**, or select **Script** and paste your words.

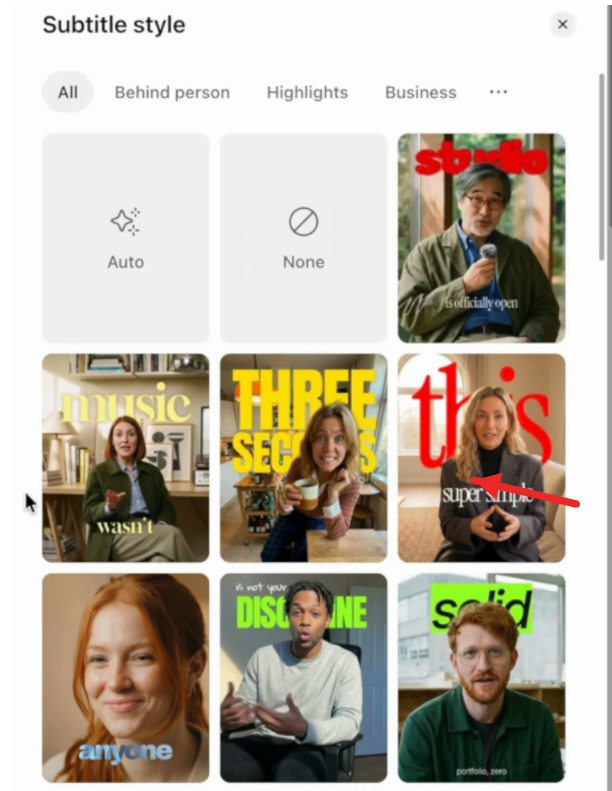

03 Add captions + music

A few clicks make the video feel like yours.

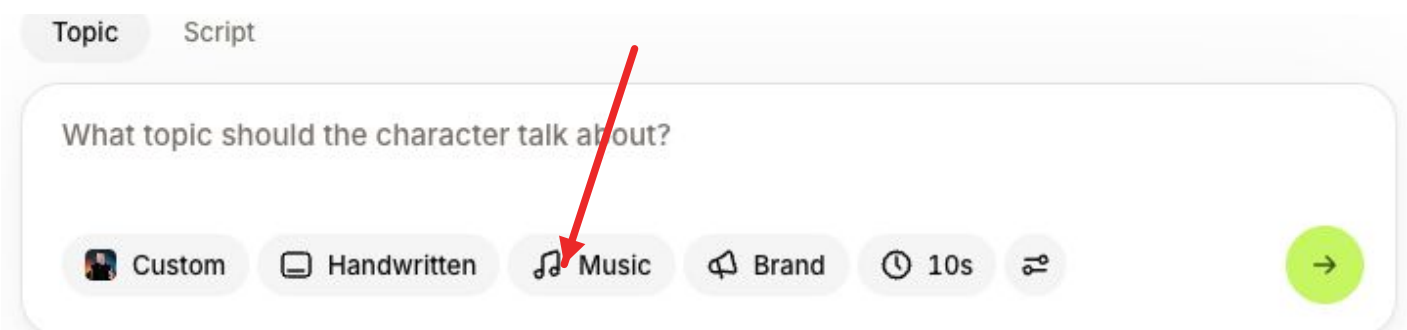

1. Choose a caption style.

Click the subtitle-style button
(shown as Handwritten).
Choose a look from the gallery.

2. Add background music.

Click **Music**.
Choose **Auto** to match the topic and duration,
or choose a track if shown.

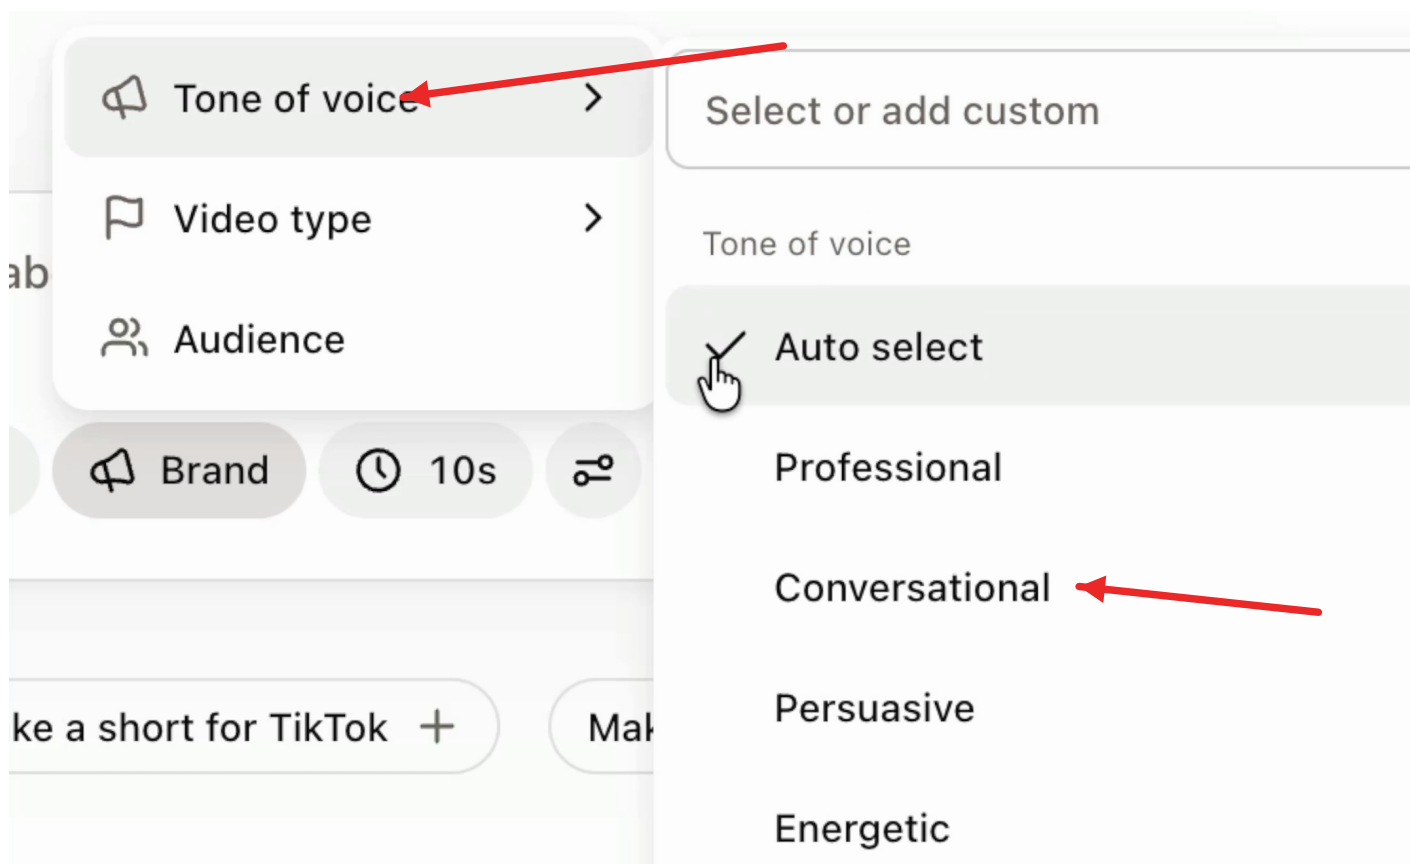

04 Set tone + length

Keep the style and duration right for your video.

1. Set the tone, if available.

Open the sliders menu, then **Tone of voice**.

Pick a tone such as Conversational or Energetic.

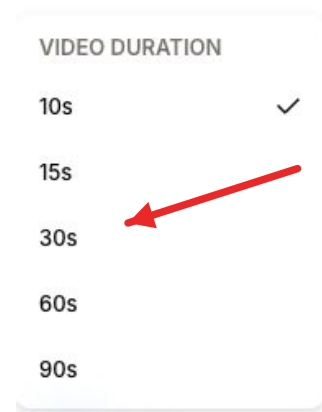

Shown in the recording. If this menu is absent, describe the tone in your topic or script.

2. Choose the duration.

Click the time button (for example, **10s**).

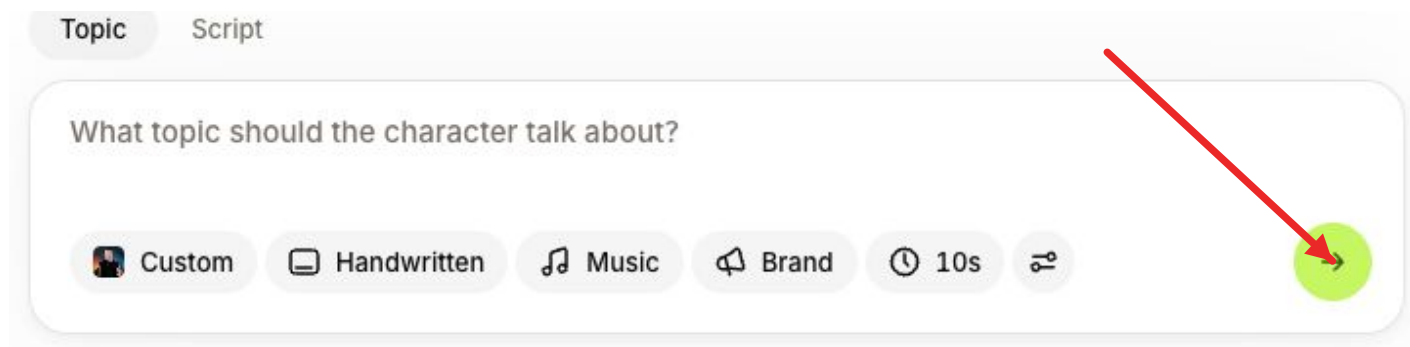

Select the length you want.

05 Generate your video

Check your choices, then let VEED build the video.

1. Click the green arrow.

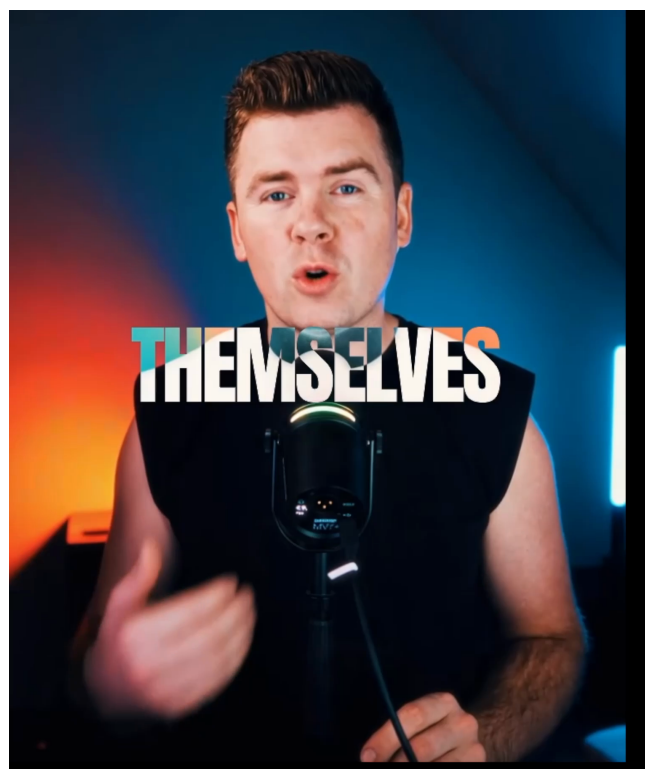

Topic Script
