VIRAL G LOGO REFERENCE IMAGE PROMPTS

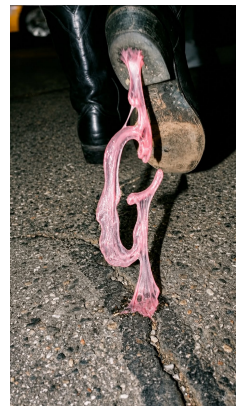

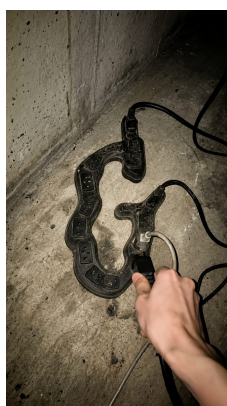

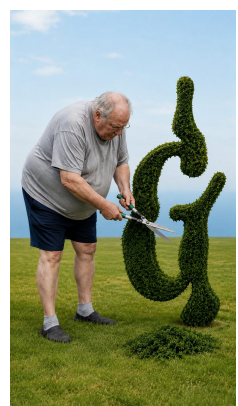

Higgsfield -> <https://higgsfield.ai/?fpr=johnsavageai.com>

All My Socials -> <https://links.johnsavageai.com/>

I found the reference images on Instagram and came up with many of these ideas myself. You can copy mine if you want, upload your own reference image, and use the prompts below.

COPY-PASTE MASTER PROMPT

MASTER IMAGE PROMPT

Use the uploaded reference image. Replace the original symbol, logo, mark, or object with the same stylized glossy drippy G letter from the provided G reference. Keep the scene, camera angle, lighting, composition, material texture, realism, and vibe of the reference image. The G must feel physically integrated into the photo, not pasted on. 9:16 vertical, ultra-realistic, high-detail, social media ready.

FAST FORMULA

Reference image + stylized G replacement + same vibe/material + physically integrated + 9:16 vertical.

01 - G Mountain Road

IMAGE PROMPT

Use the aerial winding-road reference image. Replace the original road layout with the same stylized G shape. Keep it realistic as a mountain road with cars, trees, cliffs, shadows, and a drone-like top-down composition. 9:16 vertical, high detail.

KLING 3.0 VIDEO PROMPT

drone footage, slowly zooming in (sounds SFX and the surrounding sounds, NO MUSIC) the race cars are driving

02 - Glowing Building Window G

IMAGE PROMPT

Use the apartment building night reference image. Change only the lit windows so they form the same stylized G letter shape. Keep the dark city atmosphere, realistic window grid, subtle bloom, night haze, and 9:16 vertical framing.

KLING 3.0 VIDEO PROMPT

hand held video footage filmed with an old android phone. "hand held, shaky, video footage, zooms in and out like with an iphone, (in the background just street sounds SFX and the surrounding sounds, NO MUSIC) the lights are flickering all at once, multiple times (only the G section)"

03 - Pink Gum G On Shoe

IMAGE PROMPT

Use the gum-on-shoe reference image. Shape the stretched sticky gum into the same stylized G letter, attached to the shoe sole and pulled down toward the ground. Keep the gritty asphalt texture, flash-photo look, sticky pink material, and 9:16 crop.

KLING 3.0 VIDEO PROMPT

hand held video footage filmed with an old android phone. "hand held, shaky, video footage, zooms in and out like with an iphone, (in the background just street sounds SFX and the surrounding sounds, NO MUSIC) the gum is just hanging as the shoe is expanding it slowly"

04 - G Scratched Leather + Cat Paws

IMAGE PROMPT

Use the leather sofa and cat paws reference image. Replace the original scratch mark with the same stylized G scratched into the brown leather. Keep realistic leather cracks, raised scratched edges, cat paws at the bottom, warm light, and 9:16 crop.

KLING 3.0 VIDEO PROMPT

hand held video footage filmed with an old android phone. "hand held, shaky, video footage, zooms in and out like with an iphone, (in the background just ambience sounds SFX and the surrounding sounds, NO MUSIC) the cat paws move and scratch around the G mark on the leather"

05 - Melted Lime G Ice Cream

IMAGE PROMPT

Recreate the ice cream reference image. The half-melted ice cream forms the same stylized glossy drippy G letter on concrete. Ice cream color is lime green. Keep a realistic waffle cone with a bit of ice cream still inside. 9:16 vertical.

KLING 3.0 VIDEO PROMPT

hand held video footage filmed with an old android phone. "hand held, shaky, video footage, zooms in and out like with an iphone, (in the background just ambience sounds SFX and the surrounding sounds, NO MUSIC) melted ice cream on the ground, a sneaker steps on the waffle cone"

06 - Scratched G On Red Car

IMAGE PROMPT

Use the red car panel reference image. Replace the star scratch with the same stylized G outline scratched into the red paint. Keep the raw exposed edges, chipped paint, reflections, handheld realism, and 9:16 vertical framing.

KLING 3.0 VIDEO PROMPT

hand held video footage filmed with an old android phone. "hand held, shaky, video footage, zooms in and out like with an iphone, (in the background just ambience sounds SFX and the surrounding sounds, NO MUSIC) a person comes to the car and scratches the outline of the G letter, and then runs away"

07 - Floating Pink G Balloon

IMAGE PROMPT

Use the city street balloon reference image. Replace the balloon/object with a giant glossy inflated pink G letter balloon floating between warm European-style buildings. Keep realistic reflections, scale, sunlight, and 9:16 framing.

KLING 3.0 VIDEO PROMPT

hand held video footage filmed with an old android phone. "hand held, shaky, video footage, zooms in and out like with an iphone, (in the background just ambience sounds SFX and the surrounding sounds, NO MUSIC) the balloon is floating in an air, and people are watching it"

08 - G Power Strip

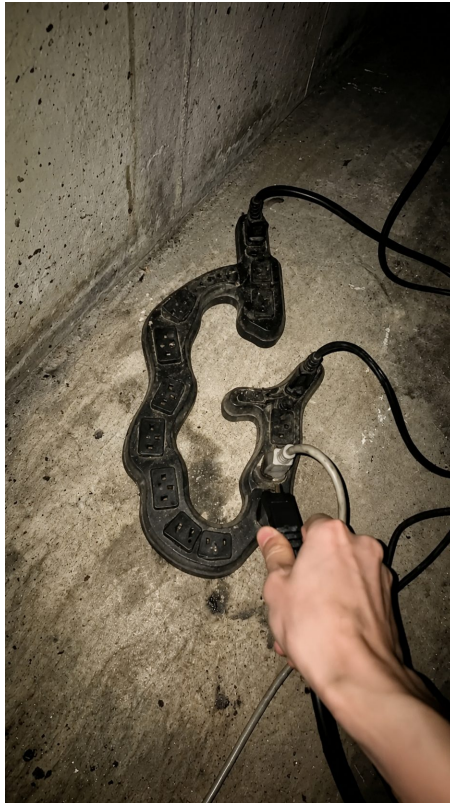

IMAGE PROMPT

Use the cross-shaped power strip reference image. Replace the object with a black G-shaped power strip lying on rough concrete, with cables plugged into it. Keep the dirty basement floor, flash-phone look, cables, shadows, and 9:16 framing.

KLING 3.0 VIDEO PROMPT

hand held video footage filmed with an old android phone. "hand held, shaky, video footage, zooms in and out like with an iphone, (in the background just ambience sounds SFX and the surrounding sounds, NO MUSIC) the hand puts in the outlet and as he plugs it in instantly white electric sparks go off with fire"

09 - G Topiary Gardener

IMAGE PROMPT

Remake the garden/topiary reference image. Keep the G shape as the leafy sculptural topiary. Make the gardener an older, out-of-shape man holding the garden shears properly while trimming the G. Keep the scene realistic, bright outdoor field, 9:16, high detail.

KLING 3.0 VIDEO PROMPT

hand held video footage filmed with an old android phone. "hand held, shaky, video footage, zooms in and out like with an iphone, (in the background just ambience sounds SFX and the surrounding sounds, NO MUSIC) the gardener is cutting and trying to shape the G grass letter plant"
